

Thank you for visiting
Leslie Science & Nature Center
(LSNC).

LSNC provides environmental
education opportunities for youth
and their families. These educa-
tional programs are outdoors,
hands-on and discovery-based
and are offered for school groups,
scout groups, birthday parties,
and the general public.

LSNC's grounds, raptor enclo-
sures, and trails through Black
Pond Woods are open seven
days a week.

For more information on our
organization and programs
please contact:

Leslie Science & Nature Center
1831 Traver Rd.
Ann Arbor, MI 48105
(734) 997-1553
www.lesliesnc.org

While you are here please enjoy:

- 1 Leslie House & Main Office**— The main office is open M-F.
- 2 Raptor Enclosures**— These live birds of prey are no longer able to survive in the wild on their own. They now serve as wildlife ambassadors.
- 3 Critter House**— Home for many animals used to educate and inspire respect for our natural world. The Critter House is open most Sundays, 12-3p.m.

There are two main trail entrances. Please see the reverse side for a trail map.

Outside drinking fountain— During warm months

Please note that LSNC does not have an open public restroom. During business hours the main office has a restroom and during the summer months a portable toilet is located on the north end of the parking lot.

Black Pond Woods: Hiking through the Black Pond Woods will allow you to explore the plants and animals of the forest. Follow the black arrows and numbers on the trail posts to visit Black Pond, a vernal pool, for a mile-long hike. Other marked color trails are shorter in distance.
